19 90-14-104, AND 90-14-105, MCA; AND REPEALING SECTION 21, CHAPTER 402, LAWS OF 2001."

20
21 WHEREAS, the 57th Legislature requested a study of veterans' issues, and the State Administration
22 and Veterans' Affairs Interim Committee (SAIC) conducted numerous hearings, received expert testimony, and
23 examined research during a 14-month period; and

24 WHEREAS, the SAIC finds that, using 2000 data, Montana's population of nearly 107,000 veterans and
25 an estimated 170,000 family members of veterans not only ranks Montana second in the nation in the number
26 of veterans per capita (11.9%) but also means that veterans and their family members constitute more than 25%
27 of Montana's total population; and

28 WHEREAS, the SAIC finds that more than 80,000 Montana veterans are combat-era veterans (more
29 than 36,000 are Vietnam-era, more than 16,000 are Persian Gulf-era, more than 16,000 are World War II-era,
30 and about 14,000 are Korean-era veterans) and that the largest group of veterans is now between 50 and 65

1 years of age; and

2 WHEREAS, the U.S. Department of Veterans Affairs (VA) estimates that more than 50% of combat
3 theater veterans suffer from clinically serious and disabling posttraumatic stress disorder; that twice as many
4 veterans as nonveterans experience homelessness; that many veterans have overlapping and complex needs
5 encompassing medical and nursing home care, mental health and chemical dependency counseling, housing,
6 transportation, education and training, job services, and family support services; and that the children and
7 families of veterans who do not get the help that they need are themselves at risk; and

8 WHEREAS, these complex needs and a maze of federal, state, local, public, and private services
9 demand a high level of interagency coordination and cooperation for effective service delivery to ensure that
10 veterans and their families do not fall through the cracks and to avoid unnecessary cost-shifting from federal to
11 state and local public assistance programs; and

12 WHEREAS, the SAIC finds that current statutory language establishing the Board of Veterans' Affairs
13 as the lead agency for veterans' affairs dates back to 1919 and that although the Board's duties and
14 responsibilities have consistently evolved, statutory language has not kept pace; and

15 WHEREAS, the Board hires and supervises its own classified employees, who make up the Montana
16 Veterans' Affairs Division (MVAD), but the Board does not have rulemaking authority to implement programs;
17 and

18 WHEREAS, the Board is administratively attached to the Department of Military Affairs, which has
19 greatly assisted veterans and supported the Board but has no statutory authority over veterans' affairs; and

20 WHEREAS, a legislative performance audit requested by the SAIC revealed that although the MVAD
21 is to be commended for doing a great job with limited resources and limited statutory guidance, it also revealed
22 that new management tools and updated information management systems are needed to provide more
23 consistency, track and manage staff workload, and evaluate agency performance, which are tasks best
24 accomplished by a department rather than a part-time board; and

25 WHEREAS, the VA spent about \$175 million in Montana during fiscal year 2000, which ranked Montana
26 37th in VA expenditures per capita veteran population; and

27 WHEREAS, the SAIC finds that a statutory restructuring of powers, duties, and responsibilities for state
28 veterans' affairs programs is essential, not only to address inadvertent statutory shortfalls and elevate the profile
29 of state veterans' affairs, but also to better integrate benefit claims with human services programs so that eligible
30 veterans and family members receive the federal compensation, benefits, and care that they have earned in

1 self-sacrificing service in the armed forces of the United States of America.

2

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:
